

Calling all Project Managers!

1 FOSTER Info Day 22nd Feb

The FOSTER Info Day is designed to welcome RUBRIC Partner Project Managers to the RUBRIC Project. It will be a great opportunity to become acquainted with the RUBRIC Project, meet the RUBRIC Central team, review the FOSTER Toolkit and meet Project Managers from related projects.

Will your Project Manager be appointed and ready to attend this day? Please let Cameron (loudon@usq.edu.au) know ASAP.

2 RUBRIC Board Meeting teleconference 13th Feb

The next RUBRIC board meeting has been set for the 13th of February and will be conducted via teleconference. The agenda is currently being finalised although a draft is available from the RUBRIC SharePoint portal.

3 ARROW installation immanent!

The RUBRIC Central team based at USQ have installed two newly-purchased servers which will host demonstrator sites, and allow partner access to our internal planning systems. A VITAL demonstrator is due to be installed by VTLS this cycle. This means an initial assessment of the base installations of DSpace, FEZ and ARROW will be reported in coming weeks.

4 RUBRIC Website updates

The RUBRIC website continues to evolve over the last few weeks to make the information more accessible and understandable. Recent changes include an updated Project Details page, a developing FAQ's section, a new Resources and Foster Toolkit section and an updated Contact Information and Related Projects sections.

Your feedback is appreciated.

5 Sustainable Word Processing

Dr Ian Barnes from ANU and the APSR Project visited USQ Toowoomba on Monday 5 Dec and presented on the very interesting topic of the Sustainability of Word Processing documents. This visit was reported in the USQ News (page 10).
