

# Migration Toolkit

## AANRO to Fez/Fedora

Outlines the process of transforming raw database output from AANRO research systems to Fedora XML (FOXML) that can then be ingested into Fez repositories.

[\[View Report\]](#)

## EndNote to MARCXML data map

Outlines the EndNote data to MARCXML data map used in the Migrating EndNote data into a Fedora based repository migration strategy

[\[View Report\]](#)

## EndNote to VITAL

Outlines the strategy for migrating items from an EndNote library into a VITAL repository

[\[View Report\]](#)

## Eprints to VITAL2.1

Outlines the strategy for migrating items in from an Eprints Repository into VITAL2.1 repository

[\[View Report\]](#)

## Harvesting ADT data for import into VITAL

Outlines the strategy for migrating items in an Australian Digital Thesis (ADT) repository into a VITAL based repository

[\[View Report\]](#)

## Harvesting ADT data for import into DSpace

Outlines the strategy for migrating items in an Australian Digital Thesis (ADT) repository into a DSpace repository

[\[View Report\]](#)

## Harvesting OAI data to DSpace

Outlines the strategy for harvest all of the items in an OAI repository into a Dspace repository

[\[View Report\]](#)

## MARCXML to Dublin Core data map

Outlines the MARCXML to Dublin Core data map used in the Migrating EndNote data into a Fedora based repository migration strategy

[\[View Report\]](#)

## Migrating ACV data into VALET

Outlines the strategy for migrating items from an ACV library system to VALET for review and ingest into VITAL.

[\[View Report\]](#)

## Migrating Callista data into VALET

Outlines the strategy for migrating items from a Callista library system to VALET for review and ingest into VITAL.

[\[View Report\]](#)

## Migrating csv data into a VITAL2.1 repository

Outlines the strategy for migrating items from csv into a VITAL2.1 repository

[\[View Report\]](#)

## Migrating EPrints data into a DSpace repository

Outlines the strategy for migrating items from an EPrints repository into a DSpace repository

[\[View Report\]](#)

## Migrating Research Master data into a VITAL repository

Outlines the strategy for migrating items from Research Master into a VITAL repository

[\[View Report\]](#)

## Migrating Voyager data into a VITAL3.1.1 repository

Outlines the strategy for migrating items from Voyager into a VITAL3.1.1 repository

[\[View Report\]](#)

## Migrating xml data into a VITAL2.1 repository

Outlines the strategy for migrating items from an xml datafile into a VITAL2.1 repository

[\[View Report\]](#)

## VALET Mapping to VITAL Portal 2.1

Provides a detailed overview of the mapping between fields available in VALET, and those available in the Access Portal
